If the concept of luxurious designer upholstery fabric that will also last for years on your favorite patio lounges and sofas sounds like an oxymoron, then think again. Perennials' new Beyond the Bend line of brightly hued outdoor fabrics adds a colorful touch to your outdoor furniture while at the same time withstanding the inevitable weather and wear. Designed for a variety of places and spaces, be it your yacht or poolside lounge chairs, the fade-resistant fabrics withstand water, UV rays, and stains. The four designer patterns come in eight colors, fit for any personality. Available at Shears and Window, 101 Henry Adams Street #256, San Francisco, 415.621.0911. ➔
