SHOP TALK

GREEN WITH ENVY

Silhouetted shapes and bright colors combine in Mod Green Pod's line of wallcoverings. The company was founded by two women who have backgrounds in the fashion industry and an interest in preserving the environment. The partners create wallpapers and textiles made from eco-friendly materials. The Grand Jubilee line, pictured here, is vinyl-free and silk-screened by hand. The wallcoverings are carried by Q Collection, (212) 529-1400; qcollection.com. Find out more about the company at modgreenpod.com.

NEW ADDITION

Modern furnishings retailer Design Within Reach is ringing in 2007 with a new line of furniture and accessories. The Fritz Hansen Collection is comprised of items created by several designers and architects who influenced style during the 20th century. Pictured here is the Swan Chair by architect Arne Jacobsen. The piece originally was made in 1958 for SAS Royal Hotel in Copenhagen, Denmark, which also is a Jacobsen design. Find out more by calling (480) 970-8800, or go online to dwr.com.

GOLD STANDARD

Shimmer and shine define this new line of fabric from John Hutton Textiles. Precious Metal, part of the Bling collection, offers a striking alternative for upholstered pieces. The series is a blend of silk and Lurex® and is manufactured in nine colorways, including Platinum, Pewter and Copper. The fabrics are available to the trade through the David Sutherland Showroom, (310) 360-1777; or can be viewed online at johnhutton-textiles.com.
